

Food Labeling Systems

It is crucial to have economical and sustainable solutions when it comes to food labeling to ensure proper FIFO (first in, first out). We offer a wide range of food rotation labels, date coders, label dispensers, as well as the Date Code Genie, one of our recent innovative offerings that can also help you enhance traceability.

- › Dissolvable Labels
- › Allergen Labels
- › Tamper-Evident Label
- › Label Kits
- › Data Coders and Label Markers

Reasons you should adopt a Food Safety Labeling System

- Assure the Health Inspector that your kitchen operation is safe. Using an organised colourcoding labeling system reassures your Health Inspector that your operation is up to date and takes food safety seriously.
- Avoid crosscontamination. Our food labeling system comes in several adhesive options that meet the needs of a diverse kitchen environment. Our dissolvable labels leave no adhesive residue after washing, so stacking containers is now safe.
- Avoid serving food that is out of date or freshness. Our colourcoded labeling system allows easy identification in refrigeration or freezer environments.
- Better inventory control. Our Use By or Use First labels allow kitchens better control of foods where multiple batches are made, ensuring a FIFO (First In, First Out) inventory control system.
- Avoid lawsuits. When used properly, our food safety labeling systems create an organised and safe solution in managing food freshness.
- Reduce food waste. Using our labeling system helps avoid food waste by carefully monitoring expiration dates.

Dissolvable

- Dissolves completely in water of any temperature. Both label and adhesive are biodegradable. Labels are durable in cooler and freezer environments. Place label above condensation line of the container. Avoid steam and condensation.
- Minimum Application Temp: 6°C
- Working Temperature Range: -40° C to 80°C

Removable

- Removes easily from metal, glass and plastic. Remove label before washing container.
- Minimum Application Temp: 12°C
- Temperature Range: -40 °C to 71°C

The leading productivity tool for busy kitchens.

DCG X2

High flexibility and economy provided by a single printer.

- DCG X2 model has one 2" thermal printer

DCG X22

Dual printers allow for labels to be created simultaneously without reducing workflow.

- DCG X22 model has two 2" thermal printers

DCG Lite

A portable solution that automates your labelling process.

- DCG lite model has a stand-alone 2" and 3" printer

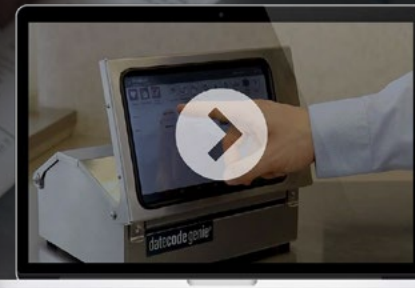

The leading productivity tool for busy kitchens.

Product Waste Tracking

With this optional feature, you can track product waste within your existing work flow and view this information on the cloud by device location.

Restaurant Override

With this optional feature you are able to choose specific locations to add menu items to. This gives you the ability to adjust pricing of menu items per location.

Single Printer Automated Labelling Solution with USB

Item Code	SP-DCGx2-C
-----------	------------

Slim design while incorporating the premium stainless steel housing that you expect from a DateCodeGenie® product. This unit features one thermal printer. Designed for use with DateCodeGenie® USB accessories.

Feature	Specification
Material	Kitchen Grade 304 Stainless Steel
Screen size	10" touch
Screen	Adjustable
Printers	One 50mm (2") Thermal Printer
Dimensions	12" W x 9.5" D x 10.25" H
Warranty	1 year

2" Dual Printer Automated Labelling Solution with USB

Item Code	SP-DCGx22-C
-----------	-------------

Two printers allow for labels to be created simultaneously without reducing workflow. Designed for use with DateCodeGenie® USB accessories.

Feature	Specification
Material	Kitchen Grade 304 Stainless Steel
Screen size	10" touch
Screen	Adjustable
Printers	Two 50mm (2") Thermal Printer
Dimensions	12" W x 9.5" D x 10.25" H
Warranty	1 year

Portable Single Automated Labeling Solution

Item Code	SP-DCG Lite
-----------	-------------

A portable solution that automates your labelling process for both front and back of house operations, especially for kitchens with limited space. The DateCodeGenie® Lite features a 10" full-color touch screen with a protective easy-grip silicone case and a single, stand-alone printer that handles 2" and 3" labels with ease.

Feature	Specification
Material	Plastic and Silicone
Screen size	10" touch
Screen	Portable
Printers	3" Thermal Printer fits 2" and 3" Labels
Dimensions	Tablet: 10.5" W x 7" H x 0.75" D Printer: 6.5" W x 6.375" H x 8.5" D
Warranty	1 year

With an easy-to-use touch screen, and the ability to add notes or print custom labels with the Date Code Genie, you can save time, food and money. Prints one label a second.

- Create food category icons
- Multi-Language capabilities
- Include nutrition information
- Easy interface
- Print custom labels
- Print 60 labels per minute
- Kitchen grade stainless steel housing
- Customised category images
- View/Reprint last label
- Touchscreen
- Include Allergen information
- User data backed up on cloud
- Free software updates via WiFi
- Easy drop in label roll loading
